School/Community/Home Relations

Commercial Activities

Southeast Technical Institute serves as an important link to regional economic growth. At the same time, STI is an educational facility dedicated to preparing its students for employment. Therefore, STI has an obligation to serve both area businesses and its students by providing an atmosphere helpful to economic growth and conducive to student learning.

STI will protect student instructional time by maintaining a student environment that is free from commercial activities.

STI will serve the business and industry training needs of the area by providing facilities and resources for commercial activities only as they relate to the development of students, faculty and staff, and /or meet STI's mission of providing quality accredited programs, customized training, continuing and adult education opportunities, professional growth, and life-long learning opportunities.
