Avera Health Care Careers Exploration

Learn how to begin your education and health care career while still in high school!

Spend the first morning with our instructors at the CTE Academy experiencing both our Biomedical and Health Careers programs. Learn what each program can help you do and the advantages of exploring health care careers in high school. Move on to Southeast Technical College in the afternoon where you can learn how to start the next level of training while still in high school through programs including the Avera Academy. The following morning, explore the Avera McKennan campus to see health care careers in action while learning about how you can get involved!

Open to Fall 2021 10th & 11th Grade Students

July 13th - 14th, 2021
