TO OUR DONORS:

It was a challenging year for fundraising. We are appreciative to our historic and new donors who continued to support our workforce mission. Our commitment to students continues with an increase in sponsorships to support the Build Dakota program and more scholarships. The Foundation's number one commitment is to help students matriculate, persist, graduate and join the workforce.

Nationally, retention, persistence and the growing student debt continue to be significant issues facing higher education. We are proud that our retention rate improved in the last year and that the Brookings Institute rated Southeast Technical College No. 8 for Economic Mobility out of more than 500 two-year institutions. Our exceptional price point and opportunities for students to improve their economic station are without a doubt a great Return on Investment at STC.

Moving forward, we will bring the successful NOW Campaign to a close in 2022 and create new initiatives to support the College and our community. At the heart of our current and future efforts will be assisting first-generation and under-represented students. Southeast Tech has a huge role to play in the current initiatives being launched by the City of Sioux Falls and the Sioux Falls Area Chamber of Commerce. We are excited to grow our footprint in these areas and provide access and opportunity to all students.

Cordially,

Stephen Williamson

Foundation Director
